

ALISHA MCKINLEY

IT Support Specialist

Alisha McKinley is an IT Support Specialist on The Water Institute's IT Team and focuses on minimizing technical issues, updating/maintaining equipment, and addressing IT related concerns. Alisha earned her bachelor's degree from Columbia Southern University in Information Technology.

Alisha's experience was with Weaver Wireless Consultants where she focused on performing one on one training courses with individuals and businesses to better their knowledge of their technology and software. In addition to performing training, she helps to set up workstations, laptops, cellphones, tablets, and more.
